Empowering THE FUTURE OF BEAUTY

GLAMORE AESTHETICS LTD TECHNICIAN

Profit Once Qualified

The Beauty and Aesthetic industry is growing rapidly with a massive growth rate it seems our clients want the best and are willing to pay for it. Below we have chosen to use an example **SPMU – Semi Permanent makeup and Microblading**, to show you each treatment has a rapid return on your initial investment, you can **earn your training fees back very quickly**. With the right help and support from us we can show you how to achieve **Growth in your business today**. The table is based on 10-20 clients over an eight week period. That's only 5 clients per week, taking 1.5 hours per procedure on SPMU or Microblading, If you apply yourself in the training course correctly, these figures are completely realistic for you to achieve, once you have established your client base. If you are just starting out and do not have a client base, then you need to start spreading the word that you are training and looking for models to practise on when you are fully trained. We suggest to charge around **£100 for eyebrows** once your training is completed. This will help the word spread in your local community that you are available for treatments and you will soon be busy and able to charge higher prices.
